

lib/LogManager/src
/LogManager.hpp

```
graph TD; A["lib/LogManager/src /LogManager.hpp"] --> B["Arduino.h"]; A --> C["SPI.h"]; A --> D["SD.h"];
```

The diagram illustrates the dependencies of the file `lib/LogManager/src /LogManager.hpp`. It is represented by a gray rectangular box at the top. Three blue arrows originate from the bottom of this box and point to three separate white rectangular boxes below it. These boxes are labeled `Arduino.h`, `SPI.h`, and `SD.h` from left to right, indicating that the `LogManager.hpp` file depends on these three header files.

Arduino.h

SPI.h

SD.h
